* Premium radios (Bose, Alpine, JBL, etc.) require a radio interface kit.
Cruise Controls

Part #25012235004 Auto Transmissions
Part #25012235054 Manual Transmissions

Set your speed with a touch of your finger! Once selected, your cruise control constantly measures changes in the engine loading and vehicle speed in order to maintain a constant speed on the highway. Easily set the controls and avoid unintended speeding.
Slow down or accelerate, you don’t have to touch the pedal. Available on most automatic and manual transmissions.
Check for compatibility.

Lane Departure System / DVR

KEY FEATURES
• Forward Collision Warning System. (FCWS)
• Lane Departure Warning System. (LDWS)
• HD Driving Video Recorder with Normal, Event, and Manual (forced) recording at 30FPS, in 1280 x 720 HD Quality
• GPS receiver for direction, speed, and date and time recording automatically
• Included DVR playback program that includes Mapping of your route.
  (for Windows compatible computers)
• Records in AVI format and can be played back in any computer or tablet with a supporting player. (Mapping program will not be utilized)
• System continuously records Audio and Video and incorporates loop recording insuring your card is never full

Part # LSWS100A005

Blind spot detection (Radar Based)

Part # ACABSD008

KEY FEATURES
• Alerts are shown when other vehicles, people or objects enter the blind spot of the vehicle, adding another level of safety
• Mounts behind the bumper (Plastic bumpers only)
• Compact design
• Selectable speed sensing activation through CANBUS
• Audible and visual alerts
• Waterproof IP67 rated
• 3 year warranty

Park Assist Bumper Sensor Systems

The PSD100D deluxe digital front or rear (2) sensor upgradable system with included multicolor indicator display is equipped with learning capabilities which it will learn to ignore vehicle mounted objects (i.e. bike racks, mounted spare tires and/or hitch mounted accessories). The system can detect obstacles over 6 feet away from the bumper, can be installed as a front or rear sensor system and can be upgraded to a (4) sensor system using the PSD200 2 sensor kit.
• PSD100D includes multicolor indicator display in addition to audio warnings
• Learning capability - this system can learn to ignore vehicle’s mounted objects

Front Bumper (2 Black Sensors)
Part # PSD100D003

Rear Bumper (4 Black Sensors)
Part # PSD100D053
Garage Door Opener Systems

HOMLHLM1 Part # HOMLHLM043
Homelink headliner or overhead console mount.

HomeLink®, developed by Johnson Controls, Inc., the world’s leading supplier of automotive seating and interior systems, has grown to become one of the auto industry’s most recognizable brands. Homelink®, the Wireless Control System that learns the codes for up to three remote control devices.

36 month / 36,000 mile limited warranty

For Homelink Mirrors – See page 1

Power Lift Gate Systems

Part # ADVLFT009

This system offers added convenience to the way you can open your trunk. Offering you a key-less solution with buttons conveniently located at the front and rear of the vehicle, just simply press and go, let the power lift-gate take care of the rest.

Vehicle specific. Available on select vehicles. Call or visit www.dakotaautomotiveproducts.com for current application list

Power Lumbar

Part # PLUM002

Cruise in comfort! With a Power Lumbar Support System, you can set the amount of lower back muscle support you need for your individual comfort while driving. Tucked away inside the driver or passenger seat, the Lumbar Support System provides the precise amount of extra lumbar support to your lower back, decreasing lumbar strain at your command. With just the touch of a finger, the seat or console-mounted switch activates a pneumatic motor filling the bladder within the seat. Make every drive a comfortable drive.
Heated Seat Systems

Cold day chills and long drive fatigue can be a thing of the past, when you have seat heaters installed in your vehicle.

Safe, reliable and easy to use line of seat heaters will keep you warm and cozy. Available for install on both factory cloth seats and of course with leather interior.

Seat heaters also provide excellent therapeutic relief to heat benefitting back problems.

• Best in warmth and comfort.
• Seat Heaters can be added to existing factory cloth and leather seats.
• Heated seats can be added to the rear passenger seats on most vehicles.
• Carbon fiber heating elements.
• Industry’s safest technology.
• Same technology utilized by most OEMs.
• Most efficient and balanced heat.

Seat Heater Pads are installed on the lean back and cushion. Some vehicles prohibit a heat pad on the passenger cushion/lean back because of the airbag sensor.

Order # SCS004  Luxury order # SCS005  36 month / 36000 mile limited warranty

Cooled and Heated Seats

True forced-air cooling and heating combined with our premium leather interior.

Installed on both front seats, climate controlled seating brings comfort and luxury reserved for more expensive models.

Using Amigeron’s Thermal Electric Device (TED) and specially designed blowers,

Cooled or heated air is forced through special foam and perforated leather, providing true air conditioned or heated seating - the same technology utilized on most OEM cooled and heated seats.

36 month / 36000 mile limited warranty

2 Row Vehicles w/Leather Interior Upgrade  Order # RWCCS0002

3 Row Vehicles w/ Leather Interior Upgrade  Order # RWCCS0042

• Price includes our Leather interior that is color matched to the factory trim. Perforation is added for air flow while adding luxury appearance to the interior.
• Available on select models – call for availability.
Our suppliers are the leading providers of OEM quality, aftermarket leather upholstery with decades of experience. They use top grain, fine automotive leather for our interiors and carefully match colors to provide the best possible match in not only color but OEM styling. All interiors meet or exceed factory (OEM) safety standards for passenger side airbag deployment (OPDS/ODS). Materials also meet or exceed FMVSS (Federal Motor Vehicle Safety Standards) and are backed by an industry leading 3 year / 36000 mile warranty.

Signature Series Inbuilt Sunroofs provide the ultimate in open air systems. Produced with world class styling and engineering, Signature Sunroofs offers the perfect inbuilt sunroof application for your vehicle, adding to its appearance, value, and overall driving satisfaction. Our inbuilt line will fit virtually every truck, car, or van manufactured today.

Features and Benefits:

- Available for either standard or curved roof skins.
- Solar tinted encapsulated glass.
- Three button one touch switch illuminates either green or red.
- One touch open / one touch close function.
- Auto close function.
- Programmable comfort position.
- Integrated adjustable pop-up wind deflector minimizes wind noise.
- Built in water management system for protection against the elements.
- Styled front radius.
- OE style mechanism ensures smooth quiet operation.
- Thin module design allows for maximum headroom.
- Headliner substrate allows for clean interior finish.
- Pre-bent trim rings for ribbed roof applications (sold separately).
- Life Time Warranty on sunroof parts to the Original Owner.

CarLink BT / CarLink

CarLink BT Long Range
New and first to market for 2017. This entirely new product allows long range smartphone control without any monthly or annual fees. The system communicates from a smartphone to a small one-button transmitter on your keychain via Bluetooth, and then to the vehicle using long range LoRa RF technology, extending its operating range to over one mile without any additional fees.

The two-way one-button transmitter has an extremely thin design, much like a credit card with a rechargeable battery, was developed to “stick-on” the back of any smartphone device, placed inside of a briefcase / purse or even put on a keychain to provide two-way functionality to the CarLinkBT smartphone app to lock/unlock and start your vehicle.

Carlink Cellular
Smartphone control with advanced features. Includes 1st Year of Basic & GPS Service at no charge. This is an add-on product to any of our remote starts and is not a stand-alone product.

Emergency Roadside Assistance — will come to you and assist you 24/7 for many roadside events like flat tire, out of gas, or towing.

Auto Crash SOS — will send a message automatically to a 24/7 Emergency Response call center if the device detects a severe event.

Emergency Response — will allow you to call a 24/7 Emergency Response call center from your smartphone when in the vehicle.

Safe Driver - options include Text Blocking service app to reduce texting and driving plus Safety Zones (Geo-fencing) for automatic alerts. Driver Scoring reports are also available to help improve driving habits.

Stolen Vehicle Assistance — will allow you to share the vehicle location with the police to help them recover your vehicle.

Remotely access your vehicle virtually anywhere with included 3G Nationwide Coverage.

$29.95 / year subscription – first year no cost.
