

NetHui 2020
13-14 October 2020

Sponsorship prospectus

Help us hold the first
fully online Nethui

This year, InternetNZ is taking the opportunity to bring the NetHui experience to even more New Zealanders around the country to explore what our Internet can do, and how we may use it to build a better New Zealand and a better world.

We need your help with funding to help make this vision real. Your sponsorship will help us reach even more New Zealanders and share in the discussions.

It will help us bring world-class speakers in to share their ideas, innovations and challenges. And it will help make this conversation as rich and engaging as possible in exploring how we can save the world together, with the Internet.

This year, we are inviting a select 10-12 organisations only to join us in bringing NetHui together. Your \$3000 sponsorship will be used to:

- > support access initiatives to involve underrepresented groups at NetHui, and provide wrap around care throughout the event
- > pay for the expenses of live streaming at a higher quality, to support this nationwide, online event
- > gain access to expert speakers.

In return for your sponsorship, you'll receive:

- > acknowledgement of your brand and a slide of your content on the "carousel" shown between all content breaks
- > a highlight moment when we will promote your brand and message to the NetHui audience
- > our enduring thanks for helping us pull together the first online NetHui.

Please contact Andrew Cushen, InternetNZ Engagement Director, to discuss these sponsorship opportunities or any alternative suggestions.
