

# GET MOVING in Year 6

In July we sent you our 'Get Set' plans to support you in knowing the skills children should have ready for the new school year following the period of school closures. We have now worked with the children in school and started to unpick some of the areas the children are less secure with. Below is what we know about the year group as a whole. Some pupils will be further ahead, but all pupils will benefit from the strategies we are putting in place. Please support your child with our suggestions for ideas at home.

<b>Reading</b>		
<b>What have we found?</b>	<b>In school we are...</b>	<b>At home you should...</b>
Most children in Year 6 have good reading habits and can stay focused when reading to themselves for a sustained period. They can retell the main points of books they have read. We need to encourage some pupils to read a greater variety of stories in Year 6.	In school we are sharing stories with the children every day. In addition to other incentives, we will soon be introducing Accelerated Reader in Year 6 to help promote reading and support us in ensuring children are reading books matched to their attainment. You will receive more details soon.	Children need to read fluently and with understanding to access all areas of the curriculum. It is essential that your child reads daily at home and that they read aloud at least once a week. Question your child about their current book and their preferences. Please see our attached leaflet for guidance.

<b>Writing</b>		
<b>What have we found?</b>	<b>In school we are...</b>	<b>At home you should...</b>
Most children have remembered how to structure a sentence and use punctuation. Some children in Year 6 still need to focus on their presentation skills and ensuring their handwriting is to a high standard. Children's spelling overall will need further development before Year 7.	We have introduced new handwriting books for all English work to support presentation. In Year 6 we teach targeted spelling patterns as part of our English lessons. We are looking to invest in an online spelling programme to support independent spelling work as well.	Your child will benefit from time working with you on their weekly spellings. Find opportunities to encourage your child to write such as rewriting known stories or creating their own, writing letters or sets of instructions. Encourage them to take their time with trickier spelling patterns.

<b>Maths</b>		
<b>What have we found?</b>	<b>In school we are...</b>	<b>At home you should...</b>
Children in Year 6 have a good understanding of using formal addition and subtraction written calculations. There is more work to do with securing all of our times table facts. This will then support written methods for division and multiplication.	In addition to our maths lessons we include regular times table sessions and we are tracking progress weekly. We will also make greater use of Times Table Rockstars which is an online game children enjoy both in school and at home.	Your child will need to secure their times table facts. Little but often practise on Times Table Rockstars will be hugely beneficial. A rapid recall of these facts will be essential as they form the building block for lots of maths they will cover in the future. Please support your child to complete any My Maths home learning that is set.

<b>Wellbeing</b>		
<b>What have we found?</b>	<b>In school we are...</b>	<b>At home you should...</b>
The children have come back remarkably well and are enjoying school. Some children have struggled with friendship issues or relatively minor setbacks in class. We will continue to monitor this.	As we prepare our Year 6 children for secondary school, it will be important that we help them develop their resilience. They need to recognise when they need to seek adult support as well as other avenues for coping with setbacks.	Encourage your child to talk about their day. Talk about what they have found challenging but focus on their successes. If you have any concerns regarding your child's overall wellbeing at home, please let your child's teacher know how they can support you.
