

## GET MOVING in Year 4

In July we sent you our 'Get Set' plans to support you in knowing the skills children should have ready for the new school year following the period of school closures. We have now worked with the children in school and started to unpick some of the areas the children are less secure with. Below is what we know about the year group as a whole. Some pupils will be further ahead, but all pupils will benefit from the strategies we are putting in place. Please support your child with our suggestions for ideas at home.

Reading			Writing
