A. The victor of the head-to-head within the competition round shall be awarded placement position, e.g.:

Team A 10 goals defeated Team B 6 goals. Team A will be declared the winner.

B. If a tie results from A) above, then the next highest total of goals for, minus goals against, for the entire round shall be used to determine position for tied teams, e.g.:

	Goals For	Goals Against	Differential
Team A	21	16	5
Team B	31	15	16
Team B will be awarded the placement position because they have the greater differential.			

C. If any teams are still tied after A) and B) above, then goal average will be determined to place the teams. This is achieved by goals for divided by goals against, e.g.:

	Goals For	Goals Against	Goals Differential	Goal Average
Team A	15	10	+5	1.5
Team B	23	18	+5	1.27
Team A goal average is $15/10 = 1.5$		Team B goal average is $23/18 = 1.27$		
Team A will be declared the winner with the higher goal average.				

D. If the teams are still tied after A, B or C then the team with the least penalty minutes for the entire round robin shall be used to place the teams.

E. If the teams are still tied after A, B, C or D then the move up position and/ or winner shall be determined by the toss of a coin.
