Authorization

___ I agree that this application is good for twelve (12) months after the date it is filed, and will expire if not approved for compliance within that time frame. If the application expires, a new submittal will be required and compliance with current code may be required.

___ I hereby certify that to the best of my knowledge and ability, the information provided in this application is complete and accurate.

___ I further acknowledge that, should any information contained herein prove incorrect, the building official may suspend or revoke any resulting permit and/or license.

___ I understand that in accordance with Sections 25-1-411 and 25-11-66 of the Land Development Code (LDC), non-compliance with the LDC may be cause for the Building Official to suspend or revoke a permit and/or license.

___ I acknowledge if my plans are subject to a technical review it will not be construed to be a permit for, or an approval of any violation of any of the provisions of the current adopted building codes or another ordinance of the City of Austin.

___ I acknowledge if the proposed scope of work includes removal or construction of any framing components, the applicant may be subject to providing structural drawings or third party verification letters by authorized professionals.

___ I am the record owner of this property and authorize the agent/applicant listed above to apply for and acquire a permit on my behalf.

Residential Interior Remodel Permit Application

Additional Information

Application Process

This process is applicable to interior remodel/repair projects where no additional square footage is being added to or demolished from the exterior of the structure.

The conversion of non-habitable space to habitable space is not considered interior remodel.

Please submit all documents single-sided.

Submission requirements:

- Completed application
- 2 large-format sets of: plot plan, floor plan(s), and structural drawing(s)* (11"x17", 12"x18", 18"x24", or 24"x36")
- 1 small-format set of: plot plan, floor plan(s), and structural drawing(s)* (11"x17", 8.5"x14", or 8.5"x11")

*If structural drawings are required. Unless substituted by third party verification letters.

- Austin Water Utility (AWU) W&WW Service Plan Verification, if water demand is to increase (e.g. addition of a bath)
Note: Provide water service line (from main to meter) size if known. The AWU form and the small-format plot plan must be stamped by AWU in the Development Assistance Center on the first (1st) floor of the One Texas Center prior to submittal
- Completed Demolition application with all required documentation, if any portion of an exterior wall is to be removed or modified. This includes creating new window or door openings or the enlargement of existing openings.

All drawings must be to a City of Austin verifiable scale, see [Residential Building Permit Customer Submittal Checklist](#) for additional details.

Incomplete submittals will result in review delays.

Check for expired permits: https://www.austintexas.gov/devreview/a_queryfolder_permits.jsp

Submit complete application package during Intake hours. For hours and additional information go to our website at <http://www.austintexas.gov/department/residential-building-review>

If the scope of work increases or decreases the square footage of a structure, or converts non-habitable space to habitable space, the submission of a Residential Addition and New Construction Permit Application is required for review.

About the Review Disciplines

Technical Review – Any permit exhibits not sealed and signed by a Texas-registered architect or certified building designer will be subject to a limited technical review. The technical review is not intended to be exhaustive of all possible building code requirements.

Floodplain Review – Any work requiring a permit on property located within 150 feet of an identified flood plain will require additional review. If review is anticipated, include supporting information such as FEMA elevation certificate form 086-0-033 and/or topographic surveys referencing NAVD88.

To check your property for proximity to a flood plain visit www.ATXFloodPro.com or the City's [Floodplain Development Information](#) website.

Historic Review – There is additional review of exterior changes if property is a City Landmark or located in a Local Historic District, National Register Historic District, H or HD zoned district, or partial demolition of exterior features on property over 40 years old.

Green Building – Check for mandatory Green Building Zoning Overlays online: <http://www.austintexas.gov/GIS/DevelopmentWebMap/Viewer.aspx>

Interior Remodel – Additional Information, Continued

Documentation Explanations and Definitions

What is a third party verification letter?

It is a letter furnished by a registered design professional like an architect or engineer.

When should I employ an Engineer/Architect?

Any time you are removing a load bearing wall, re-permitting any work already performed and covered up, and/or have fire/flood/termite damage and are replacing structural wood such as floor and ceiling joists or rafters. We reserve the right to have you employ a Registered Design Professional if it is determined necessary for permitting.

Plot Plan – Plot Plans must be drawn to a standard scale and are to include but are not limited to the following items: property address and legal description, north arrow, drawing scale, trees within the ROW or trees equal to or greater than 19 inches in diameter located on the property and immediately adjacent to the property, property lines, building lines for both existing and proposed improvements, easements, required zoning setbacks and roof overhangs.

Floorplan(s) – Floorplans must be drawn to a standard scale and are to include (but are not limited to) the following items: drawing scale, room labels, new wall measurements, new ceiling heights, new door and window schedule, smoke detector* and carbon monoxide detector** specifications and locations, dimensioned locations of new plumbing fixtures, handrail/guardrail locations and room square footages. Please provide Existing and Proposed Floor plan if part of the improvements includes removing or adding any wall, window, door, plumbing fixtures, etc. Clearly differentiate between existing, demolished, and new items.

*provide smoke detector system (hardwired, interconnected, battery back-up) at each sleeping room and vicinity in accordance with IRC R314

**provide carbon monoxide detector in immediate vicinity of sleeping rooms in accordance with IRC R315.

Structural Drawing(s) – If framing reconfiguration is proposed, provide structural drawings, which may include wall and floor/ceiling/roof sections and details, framing plans and/or framing design information as applicable:

General – lumber size, grade, species and spacing of all wood elements.

Wood framed floors – spans and intermediate girders

Wood framed walls – wall type (2X4's @ 16 in. o.c. as example), wall height, headers.

Wood framed roofs – roof framing plan to include rafters and girders as a minimum.
