

WORKFORCE READY KONCEPTS

WRK for Workforce

WRK enables unemployed and under-employed individuals obtain the necessary digital literacy and self-management skills the marketplace demands. By using a comprehensive solution and workforce preparation activities, we empower the economically disadvantaged to become self-sufficient.

TANF

Customized on line training with course content and competency tests address skills necessary for success

SNAP

WRK can provide the flexibility of delivering essential workplace skills and financial literacy training anytime

WIOA

The Mentoring Program can be added to facilitate guidance and support aiding in the long term success of learners

Re-Entry

Learners in and out of institutions can access training that builds their work/life skills to prepare for entering the workforce

WRK Mobile Learning

The **WRK** Mobile Learning Platform is delivered via a filtered, Internet connected device and can include all necessary support during the entire time the customer is enrolled in the program. We use our Participatory Learning Process wherein enrolled learners are challenged throughout their program on utilizing learned competencies to resolve real world workplace and life issues. With a leader-led participatory environment, our educational moderators will provide weekly real-world workplace challenges that learners will solve using the skills they have learned.

Get your people **WRK** Ready!
