

# Azure Security Center POC

Remote 2-Day Workshop | 3.000 €

## Azure Security Center as Security Management Platform

Azure Security Center is a unified security management platform that provides security health monitoring for cloud and on-premises workloads, security threat blocking, adjustable security policies for maintaining regulatory and standards compliance, vulnerability discovery tools and patches and threat detection through security alerts and analytics.

### Have set up your **Azure Security Center**

- Security Overview
- E5 Security Framework
- Zero Trust

### Better understand and mitigate potential **threats**

- Set up ASC
- Configure Policies
- Assign Initiatives

### Monitor **and protect** up to 15 endpoints and improve their security

- Enable Azure Monitor
- Monitor vulnerabilities
- Detect Threats
