

Accessing 4G LTE service or connectivity with the AirCard® 760S mobile hotspot brings enormous potential for mobile workers, travelers, or even families looking to expand their Internet capabilities at home or on the go. This second generation LTE mobile hotspot can connect with almost any WiFi device and can dock into an AirCard Hub to connect up to 20 devices through WiFi or Ethernet.

Key Benefits

- Connect to the fastest network available (LTE/Dual-Carrier HSPA+)
- Share 4G LTE with 10 WiFi enabled devices + one tethered
- Quick and easy setup
- Easy device management with the LCD screen
- Network the office or home with the AirCard Hub
- Convenient hotspot management with your tablet or smartphone

IMPROVE ENTERPRISE EFFICIENCY IT Managers and CIOs

Reduce the time and money required to test, deploy, and support mobile broadband:

- Reduce the time needed for compatibility testing with corporate applications. The device requires no software installation.
- Ensure security with VPN support and device settings pre-set to WPA2 out of the box.
- Minimize support with a dependable device that's easy for staff to setup and use.

Field Teams and Mobile Workers

Share 4G LTE with clients, colleagues, and family when at the office or on the road:

- Connect up to 10 WiFi devices at home or in the office. Expand networking capability with the AirCard Hub.
- Improve productivity with quick setup and connection.
- Manage your device and monthly data use with the LCD display or AirCard Watcher App.

Highlights

Accelerate productivity with 4G LTE

Supporting download speeds up to 100 Mbps and upload speeds up to 50 Mbps means data heavy applications such as cloud computing and streaming high-definition video are possible with a noticeably smoother experience.

Connect up to 10 WiFi Devices

Share WiFi with family and friends. With the ability to connect up to 10 WiFi devices, get the convenience of sharing 4G LTE with more people and devices.

Easy setup in under a minute

Press the power button and access the WiFi network name and password displayed on the LCD. There's no software to install, and device settings can be managed easily through a web browser. Once setup is complete, you can also connect devices with the push of a button – the WPS button (WiFi Protected Setup) on the AirCard 760S can securely connect your WiFi device without needing a keyboard or large screen.

Interactive LCD

Conveniently monitor your hotspot with real-time information displayed on the LCD screen. It relays the number of connected WiFi devices, battery life, network name, password, data usage, and more. Use the navigation button to scroll to additional screens on your device containing the latest messages, alerts, device information, and firmware status.

AirCard Hub

Dock the AirCard 760S into an AirCard Hub and share 4G LTE with up to 20 devices through WiFi or Ethernet. This lets you create a network at home or in the office with no software or adapter to install. Empower multiple WiFi devices with 4G such as your gaming console, printer, laptop, tablet, or media receiver (eg. Apple TV). The AirCard Hub is sold separately.

AirCard Watcher™ for iOS & Android

Conveniently manage your mobile hotspot connection and data use from a tablet or smartphone. Download the complimentary AirCard Watcher App to your iOS (eg. iPhone, iPad) or Android device and leave your AirCard 760S where you want to – in your bag, in the car, or by the window at home.

Technical Specifications

Technology

- Supports up to 100 Mbps download, up to 50 Mbps upload (LTE Category 3)
- LTE 1800/2100/2600 MHz (variant 1) or 2100 (variant 2)
- Dual-Carrier HSPA+ 850/900/2100 MHz (variant 1) or 800/900/2100 (variant 2)
- Standalone and assisted GPS
- WiFi 802.11 b/g/n

Dimensions

- 97.5 mm x 57 mm x 15.7 mm

Weight

- 108 g

Other Features

- WPS Button (WiFi Protected Setup)
- Shared microSD™ Slot (up to 32 GB)
- External Antenna Connectors
- Removable 2000 mAh Battery
- 1.7" LCD Display
- Manage advanced settings through a web browser

Package Contents

- AirCard 760S Mobile Hotspot
- Quick Start Guide
- USB Cable
- A/C Charger 802.1ab LLDP
- SNMP V1, V2, V3
- RMON 1,2,3,9

Accessories

AirCard® Hub

Turn your mobile hotspot into a small office or residential gateway.

Extended Battery

Use a 3600 mAh battery for up to 8 hours of mobile hotspot use.

Desktop Charging Cradle

Charge and boost signal strength by conveniently docking your mobile hotspot at home.
